

Drivers Briefing

Welcome to The Italian Race

In order to prepare for a great weekend of racing please read the rules, review the schedule and familiarize yourself with the key points of the drivers briefing.

IMPORTANT

- For everyone onsite at all times in all situation SAFETY is the highest priority
- Most importantly be considerate of the marshals when you are driving
- Listen to the Race Director if they issue warnings about specific situations
- The Race Director or Ospy Team owners may ask anyone to leave the race for egregious or persistently inappropriate behavior to anyone for any reason on or off the track.

DRIVING

- Radio on, Car on, Brain on!
- Be considerate of other drivers, marshals out on track and mechanics in the pits at all times
- While racing, you are expected to let faster cars through. Hold a wide racing line to let faster paced vehicles by and continue your run

DRIVERS STAND

- Please be civilized entering and leaving the drivers stand. There may or may not be assigned positions depending on which part of the schedule the event had reached. Wait to be allowed to get through when the previous heat's drivers have departed.

MARSHALING

- **When exiting the drivers stand, leave your transmitter and car somewhere safe or with your mechanic and GO IMMEDIATELY TO MARSHAL**
- Marshaling responsibilities are clearly identified throughout the race schedule. If it is unclear please speak with race management to avoid missing an assignment
- **MARSHALING IS MANDATORY** for every driver (medical considerations are at the Race Directors discretion)
- Stay on your marshaling spot until the next marshal arrives
- If you are not on your marshal position at 1 minute before the race start **YOU WILL GET A PENALTY**
- **FAILURE TO MARSHAL PENALTIES:**
 - **QUALIFYING: 20 seconds on best result**
 - **MAINS: disqualified from the main**
- Marshaling will always cause delays, so we will be very strict on those rules and penalties

MECHANICS

- Maximum of 2 mechanics per driver in pit-lane.
- Mechanics should be fast to leave the pit-lane after their drivers' heat.
- Mechanics should pay attention when releasing cars after refueling. A penalty for Unsafe Release may occur.

RESULTS

- Results of heats can be protested up to 5 minutes after the heat finishes.
- Incorrect transponder number must be updated at registration. Any changes to transponders throughout the weekend shall promptly notify race control.
- Race administration is not responsible for any transponder issues (wrong number, transponder broken...)

RACE NUMBERS

- Each car must have the correct number for the heat. Cars with no number or incorrect number may be black flagged from the race.
- **Three numbers - front window and both side of the wing.**
- **Numbers must be in the correct position or you cannot enter the track.**

ETIQUETTE

- Please use bin cans and try to keep your pit space clean.

Briefing Piloti

Benvenuti alla The Italian Race

Per prepararti a un fantastico fine settimana di gare, leggi le regole, rivedi il programma e familiarizza con i punti chiave del briefing dei piloti.

IMPORTANTE

- Per tutti sul posto in ogni momento e in ogni situazione LA SICUREZZA è la massima priorità
- Soprattutto, sii rispettoso dei commissari quando guidi
- Ascolta il direttore di gara se e i suoi avvertimenti su situazioni specifiche
- Il direttore di gara o i proprietari dell'Osprey Team possono chiedere a chiunque di abbandonare la gara per comportamento inappropriato
- Sii rispettoso dei recuperi quando guidi

GUIDA

- Accendi la radio, la macchina e il cervello!
- Sii sempre rispettoso degli altri piloti, dei recuperi in pista e dei meccanici ai box
- Durante la gara, devi dare strada ai piloti più veloci, così da non rovinare la tua e la loro gara.

PALCO PILOTI

- Sii corretto salendo e scendendo dal palco, attendi che TUTTI abbiano finito di correre e siano rientrati ai box.
- Potrebbero essere assegnate o meno le posizioni sul palco.

RECUPERI

- **Quando scendi dal palco, lascia la radio e VAI IMMEDIATAMENTE AL RECUPERO**
- I turni di recupero sono chiaramente indicati nel programma gara. Se qualcosa non è chiaro chiedi al Direttore di Gara per non incappare in penalità.
- **I RECUPERI SONO OBBLIGATORI** per ogni pilota (le esenzioni mediche sono a discrezione della Direzione di Gara)
- Rimani alla tua postazione di recupero fino all'arrivo del cambio.
- Se non sei nella tua posizione di recupero 1 minuto prima dell'inizio della gara, **RICEVERAI UNA PENALITÀ**
- **PENALITÀ PER MANCATO RECUPERO:**
 - **QUALIFICA: 20 secondi sul miglior risultato**
 - **FASI FINALI: squalificato dalla fase**
- I recuperi causano sempre ritardi che non possiamo permetterci, quindi saremo molto severi su tali regole e sanzioni.

MECCANICI

- Sono consentiti massimo 2 meccanici per pilota in pit lane. I meccanici devono stare DIETRO la linea rossa tranne nelle fasi di rifornimento.
- I meccanici devono guardare prima di lasciare il modello, nel caso questo ostruisca un modello in entrata o in uscita il pilota riceverà una penalità.

RISULTATI

- I risultati possono essere protestati fino a 5 minuti dopo la fine della manche.
- Il numero di transponder errato deve essere aggiornato al momento della registrazione. Eventuali modifiche ai transponder durante il fine settimana devono essere tempestivamente comunicate alla direzione gara.
- L'amministrazione della gara non è responsabile per eventuali problemi con il transponder (numero errato, transponder rotto...)

NUMERI GARA

- Ogni automodello deve avere il numero corretto per la manche. Le auto senza numero o con numero errato possono essere fermate fino all'applicazione del numero corretto.
- Tre numeri: **finestrino anteriore ed entrambi i lati dell'alettone**
- I numeri devono essere nella posizione corretta o non puoi entrare in pista.

EDUCAZIONE

- Cortesemente usa i cestini e lascia il tuo box pulito a fine gara.
