24 - 26 october 2025

1/12 Stock 13.5

1/12 GT 17.5

1/12 Modified 6.5

The Masters of Foam was founded in 2007 and besides the European Championship 1/12, Masters of Foam is the only continuous international 1/12 event in Europe that gives drivers the possibility to compare under European top level. The race has grown to the biggest 1/12 event in Europe and is extending over the several years, regularly counting over 130 drivers for 1/12 only. Last year we even had racers from USA and Canada!

The event will be in Zwevegem, Belgium, hosted by the very experienced club of MRCZ Zwevegem. The club is active in 1/12 racing since the early 1980's and will provide a huge sports facility in central Zwevegem, that allows us to build a fairly big technical track for this event. There will be ETS carpet for this event as well. The club has also hosted the EFRA 1/12 European Championship in March 2025 and this was again a brilliant race organized by the MRCZ crew! So be sure, this is a good one ;-)

Classes will be 1/12 Stock 13.5, 1/12 GT 17.5 and 1/12 Modified 6.5. All classes are run in "blinky" mode. We created 17.5 GT to give young and old a good & cheap platform to enter the world of 1/12. Before you enter this class, please check if you are really suitable to run 17.5 GT. If we do think you are not suitable, we will delete your 17.5 GT entrée. Our main goal is to have fun and support 1/12 racing in the best possible way!

We will have trophies for the top 5 of each class, as well as for the lower final winners. Further, there will be some free racing goodies handed to you by the popular Masters of Foam raffle, depending on potential sponsors.
